Træ Lyx Project lacquer

TRAE LYX PROJECT LACQUER is a water-soluble, two component polyurethane lacquer. The lacquer has a very high wear and abrasion resistance and is especially suitable for the finishing of wooden floors and staircases, which are exposed to extremely intensive wear and tear. TRAE LYX PROJECT LACQUER is resistant to most chemicals. TRAE LYX PROJECT LACQUER matt gives the floor an oiled appearance, but with the convenience of a lacquered floor.

Intensive household and commercial use.

High-gloss, satin gloss and matt.

Available in 750 ml, 2.5 l and 10 l

Træ Lyx Natural

TRAE LYX NATURAL EXTREME gives wood an ultra-matt untreated appearance. TRAE LYX NATURAL FINISH is a water based, solvent-free, two-component polyurethane top-layer lacquer for quality projects. What is special about this lacquer is that it has an untreated appearance after drying, while the floor is optimally protected. Can be exposed to extremely intensive wear and tear. It is therefore excellently suited as a project lacquer for parquet, plank flooring and furniture in residential and public spaces, such as stores and restaurants. TRAE LYX NATURAL is particularly suitable for oak, teak and various other wood types, and can easily be used as furniture lacquer. TRAE LYX NATURAL EXTREME is recommended for darker wood types.

Intensive household and commercial use.

Available in 750 ml, 2.5 l and 10 l

Træ Lyx Natural Extreme

TRAE LYX NATURAL EXTREME gives wood an ultra-matt oiled appearance. TRAE LYX NATURAL EXTREME is a water based, solvent-free, two-component polyurethane lacquer for quality projects. The product is excellently suited for parquet, plank flooring and furniture in residential and public spaces, such as stores and restaurants, which are exposed to extremely intensive wear and tear. TRAE LYX NATURAL EXTREME is also suitable for darker wood types.

Intensive household and commercial use.

Available in 750 ml and 2.5 l.

Træ Lyx Natural Finish

TRAE LYX NATURAL FINISH protects walls and gives them an ultra matte appearance. TRAE LYX NATURAL FINISH is a water based, solvent-free, two-component polyurethane top-layer for quality projects. Suitable for walls finished with latex, plaster, spray plaster and so forth, but can also be used as a finish on mineral surfaces (floors and finishes with a concrete-look). TRAE LYX NATURAL FINISH can also be used as a finishing coat for dark coloured floors and walls.

Available in 750 ml and 2.5 l.

Trae Lyx Base Coat

TRAE LYX BASE COAT is single-component clear primer for parquet. Due to the exceptional insulating properties of TRAE LYX BASE COAT, specific characteristics of the various types of wood are encapsulated, while the colour and glow of the wood are brightened up. TRAE LYX BASE COAT has a high solids content, a high viscosity and good wetting properties. TRAE LYX BASE COAT isolates the common components in some woods (such as tannin), thus preventing unsightly stripes or discolouration. Intensifies the natural, warm tone of the wood so that a good result is achieved. Simply finish with one the TRAE LYX lacquers.

Available in 750 ml and 2.5 l

Trae Lyx Natural Base Coat

TRAE LYX NATURAL BASE COAT LACQUER stains primed wood less, thereby ensuring that your floor retains a natural look. TRAE LYX NATURAL BASE COAT LACQUER is a water-based, single-component clear primer for parquet, plank flooring and furniture. It is specially developed for insulating substances contained in woods such as oak and beech. If you would like a more vivid wood colour, we recommend using the standard TRAE LYX BASE COAT LACQUER. TRAE LYX NATURAL BASE COAT LACQUER is easy to apply. Simply finish with one the TRAE LYX lacquers.

Available in 750 ml and 2.5 l

Trae Lyx Floor Lacquer

TRAE LYX FLOOR LACQUER is a water-soluble permanently elastic lacquer with high wear resistance. The elasticity makes the paint especially suitable for use on wooden objects made of soft wood, such as pine. It enhances and protects the wood optimally. The crystal clear TRAE LYX FLOOR LACQUER will not change the colour of the wood substantially and will not turn yellow. TRAE LYX FLOOR LACQUER matt gives the floor an oiled appearance, but with the convenience of a lacquered floor. TRAE LYX FLOOR LACQUER is also suitable for cork floors.

For soft woods/
household use

Satin gloss and matt.

Available in 750 ml, 2.5 l and 10 l

Trae Lyx Parquet Lacquer

TRAE LYX PARQUET LACQUER is a water-soluble lacquer with very high wear and impact resistance. The lacquer is therefore particularly suitable to seal parquet, wooden floors, doors and joinery for a long time. TRAE LYX PARQUET LACQUER is a crystal clear lacquer that will not discolour thanks to the unique composition. After being treated with TRAE LYX PARQUET LACQUER, the colour of the wood will not change substantially. The lacquer is virtually odourless. TRAE LYX PARQUET LACQUER is available in high-gloss, satin gloss and matt. The matt lacquer gives the treated object an oiled appearance.

For hard woods and
intensive wear and tear

High-gloss, satin gloss and matt.

Available in 750 ml, 2.5 l and 10 l

Trae Lyx Colour Stain

TRAE LYX COLOUR STAIN gives wooden floors and furniture, a beautiful natural look. The colours can be blended together, so that you can create your own desired colour. It is a waterproof water stain, which can be applied

indoors on soft and hard woods, on floors and furniture. After intensive drying, finish with one of the TRAE LYX lacquers.

Pine 2521	Cherry 2522	Oak 2523	Light Grey 2524	Medium Oak 2525

Available in 500 ml and 1000 ml

Trae Lyx Furniture Lacquer

TRAE LYX FURNITURE LACQUER is a water-soluble, non-yellowing, clear varnish based on polyurethane acrylate resins. TRAE LYX FURNITURE LACQUER is easy to apply and virtually odourless. It won't release any unpleasant odours in enclosed spaces. TRAE LYX FURNITURE LACQUER is moisture resistant, conventional household cleansers, various chemicals and potable alcohol.

High-gloss, satin gloss and matt.

Available in 250 ml, 750 ml

Trae Lyx Maintenance products

Because proper maintenance of your parquet, wooden floors or cork floors is essential for durability, TRAE LYX provides high-quality maintenance products, for this very purpose. If you use this regularly, the lacquered floor is easy to clean. Furthermore, the floor will remain in a proper condition until it is time for a new coat of lacquer. All TRAE LYX MAINTENANCE PRODUCTS can be combined. The composition takes into account the environment and relieving this as much as possible. The PH value is neutral and the alkalinity is minimal.

TRAE LYX maintenance products are available as:
FLOOR POLISH (matt and gloss)
POLISH REMOVER
MAINTENANCE PRODUCT
SPRAY & CLEAN (also for furniture) and
MAINTENANCE PRODUCT NATURAL.

Available in 1000 ml

Trae Lyx Rustic Lye Stain

TRAE LYX RUSTIC LYE STAIN is a reactive water-based stain that gives wooden floors, in particular those oak floors, an old rustic look in a simple way. Thanks to the 6 authentic wood colours, TRAE LYX RUSTIC LYE STAIN can be combined with many styles of décor.

TRAE LYX RUSTIC LYE STAIN is available in the shades Natural Oak, Aged Oak, Smoked Oak, Weathered Oak, Old Oak and Burnt Oak.

Floors treated with TRAE LYX RUSTIC LYE STAIN should be finished with 1 coat of Hard wax Pro Natural White and 1 coat of Hard wax Pro Mat. After this, the floor is easy to maintain.

Natural Oak Aged Oak Smoked Oak Weathered Oak Old Oak Burnt Oak

Available in 1000 ml

Trae Lyx Hard wax Pro Colour

TRAE LYX HARD WAX PRO COLOUR is a modified hard wax oil with an excellent wear resistance, good filling and natural colours; such as white, light grey, old grey, dark grey, smoked oak, walnut, cherry and black. The hard wax is extremely matt and does not shine.

TRAE LYX HARD WAX PRO COLOUR has a high chemical and mechanical resistance. It gives a parquet or wooden floor a rustic appearance and is easy to maintain.

White Light Grey Old Grey Smoked Grey Smoked Oak Walnut Cherry Black

Available in 750 ml

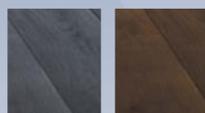

**TRAE
LYX**

Trae Lyx Hard wax Pro Metallic

TRAE LYX HARD WAX PRO METALLIC is also a modified hard wax oil with an excellent wear resistance and good filling. TRAE LYX HARD WAX PRO METALLIC is available with an aluminium or bronze effect. TRAE LYX HARD WAX PRO METALLIC has a high chemical and mechanical resistance and is easy to maintain.

A combination of a pre-stained base with TRAE LYX HARD WAX PRO METALLIC produces surprising results. Your own choice of colours gives the floor a personal touch. As a base coat, the wood can first be stained using TRAE LYX RUSTIC LYE STAIN or the TRAE LYX COLOUR STAIN from the lacquer range.

Aluminium Brass

Aluminium as an additional coat over TRAE LYX COLOUR STAIN Black (2531) and Chestnut (2536).

Brass as an additional coat over TRAE LYX COLOUR STAIN Black (2531) and Chestnut (2536).

Available in 750 ml

Trae Lyx Hard wax Pro

TRAE LYX HARD WAX PRO MATT is a modified hard wax oil with excellent wear resistance, good filling and excellent chemical and mechanical resistance. This hard wax is extremely matt and does not shine. The wood will not discolour and retain its natural colour.

TRAE LYX HARD WAX PRO MATT is ideal for finishing parquet or wooden floors, and can also be used as a finishing coat for TRAE LYX HARD WAX PRO COLOUR and TRAE LYX RUSTIC LYE STAIN.

TRAE LYX HARD WAX PRO NATURAL WIT is available with TRAE LYX HARD WAX PRO MATT but the wood preserves an even more untreated appearance by adding a white pigment.

Matt

Natural white

Available in 750 ml and 2.5 l

Available in 750 ml and 2.5 l

Trae Lyx Parquet oil

TRAE LYX PARQUET OIL is a professional low solvent nourishing oil for untreated cork and wood, indoors. TRAE LYX PARQUET OIL impregnates, protects and is dirt and water repellent.

TRAE LYX AQUA PARQUET OIL with a silk matt finish is an environmentally friendly, impregnating water based oil for parquet, wooden floors and furniture. TRAE LYX AQUA PARQUET OIL is the water-based environmentally friendly alternative for linseed oil-based parquet oil.

Parquet oil Aqua parquet oil

Available in 750 ml and 2.5 l

Trae Lyx Natural oil

TRAE LYX NATURAL OIL is an environmentally friendly impregnating oil for parquet, wooden floors and furniture. The wood retains its natural untreated appearance. The oil is only used on bare wood indoors.

TRAE LYX HARD WAX

Natural oil

Available in 750 ml and 2.5 l

TRAE LYX HARD WAX PRO FLOOR CLEANER is a water-based, environmentally friendly cleaning product for regular maintenance of floors treated with TRAE LYX HARDWAX PRO.

TRAE LYX OIL AND WAX FLOOR CLEANER is a fully biodegradable cleaning product for the regular cleaning of surfaces treated with oil or wax products.

Available in 1000 ml

Make the right choice between oil or lacquer

WOOD INDICATOR

on www.traelyx.nl

Ensure a good start

All Trae Lyx products can be combined. However, the quality of Trae Lyx only comes to its right when the base is also well prepared. Always make sure that the floor or furniture is sanded to the bare wood and is grease free and clean. Otherwise adhesion problems and colour differences will occur.

Trae Lyx is a water-based system, which means its a

natural product. This means that a reaction may occur if the components of certain types of wood come into contact with the new lacquer layer. This can result in discolouration and staining. Especially with oak flooring, this often occurs.

Which is why Trae Lyx has a base coat in its product range, which isolates the

components of the wood; Trae Lyx Base coat. We always recommend applying a layer of Trae Lyx Base coat before applying the desired Trae Lyx lacquer. This only applies to paints and not to the Trae Lyx Hard wax Oil. These can be applied without a Base coat.

Should you choose lacquer or oil?
Which finish suits you best?

1

The characteristics of lacquer

- Extremely scratch and wear resistant
- Highly resistant to chemicals
- Shockproof
- Won't leave any black streaks
- Available in different gloss levels: natural, matt, satin gloss and high-gloss

To step 2

The characteristics of oil
