

**TRAE
LYX[®]**

The standard for wooden floors

A complete range of varnish products for the finishing of parquet and wooden floors

Træ Lyx stands for quality

The origins of TRÆ LYX can be traced to Sweden. TRÆ means wood in Swedish, and LYX means luxury. That is exactly what TRÆ LYX stands for, it gives wooden floors and wooden furniture a luxury look and feel. Wood is a fantastic product, suitable for many applications. It is strong and has a long life. However, it also demands a good treatment.

The composition of TRÆ LYX products is based on the way wood is treated and handled in Scandinavia. TRÆ LYX products are developed in high tech laboratories where the focus is on continuously improving quality and to adapt to current environmental requirements. This means the TRÆ LYX are of a very high quality. Testing TRÆ LYX in practice is an ongoing process.

The various products and the range of colours are tailored to the individual requirements of the user and are in line with current trends.

Træ Lyx Natural

intensive household and commercial use

TRÆ LYX NATUREL is an ultra matt 2-component varnish of project quality. What makes this varnish special is that the floor has an untreated appearance after the varnish dries, whilst being optimally protected. Floors treated with TRÆ LYX NATUREL can be used intensively. This means TRÆ LYX NATUREL is also perfectly suited to be used as a project varnish. It is extremely resistant to wear, scratches and chemicals. TRÆ LYX NATUREL can be applied to various types of parquet and wooden floors but can also be used as furniture varnish without problem.

Træ Lyx Project varnish

intensive household and commercial use

TRÆ LYX PROJECT VARNISH is a water-soluble, 2-component varnish based on polyurethane. The varnish is very resistant to wear and scratches and is suitable for applications including the finishing of wooden floors and steps which are used very intensively. TRÆ LYX PROJECT VARNISH is resistant to most chemicals. It is available in two gloss levels; namely satin and matt. TRÆ LYX PROJECT VARNISH gives the floor the appearance of an oil floor with the ease of a varnish floor.

Trae Lyx Parquet varnish

for hard wood types and intensive use

TRAE LYX PARQUET VARNISH is a water soluble varnish with a very high resistance to wear and impact. This means the varnish is perfectly suited to seal parquet, wooden floors, doors and wooden wall claddings. TRAE LYX PARQUET VARNISH is a completely clear blank varnish, which does not yellow, due to its unique composition. The colour of the wood will remain virtually unchanged after treatment with TRAE LYX PARQUET VARNISH. The varnish is practically odourless. TRAE LYX PARQUET VARNISH is available in high gloss, satin gloss and matt. The matt varnish gives the treated objects the appearance of having been treated with oil.

Trae Lyx Colour Wood Stain

TRAE LYX COLOUR WOOD STAIN gives wooden floors and furniture a beautifully natural appearance. The colours can be mixed together, so you are able to create the colour you require. It is a water-proof water-based wood stain, which can be applied indoors to soft and hard types of wood, on floors and furniture. After intensive drying, it has to be finished with TRAE LYX PARQUET VARNISH, TRAE LYX PROJECT VARNISH or TRAE LYX FLOOR VARNISH.

				
Pine 2521	Cherry 2522	Oak 2523	Light Grey 2524	Medium Oak 2525

				
Gold Teak 2526	Walnut 2527	Teak 2528	Mahogany 2529	Dark Walnut 2530

				
Black 2531	Light Oak 2532	Beech 2533	Dark Oak 2534	Medium Walnut 2535

				
Chestnut 2536	White 2537	Colonial 2538	Greyed Oak 2539	Dark Grey 2540

Trae Lyx Floor varnish

For soft wood types/ household use

TRAE LYX FLOOR VARNISH is a water soluble permanently elastic varnish with a high resistance to wear. The elasticity makes the varnish perfectly suited to use on wooden objects made of soft wood such as pine. It makes the wood attractive and provides optimal protection. The completely clear blank TRAE LYX FLOOR VARNISH hardly changes the colour of the wood and does not yellow. It is available in two gloss levels; namely satin and matt. TRAE LYX FLOOR VARNISH gives the floor the appearance of an oil floor with the ease of a varnish floor. TRAE LYX FLOOR VARNISH is also suitable for cork floors.

Trae Lyx Project Sealer White

TRAE LYX PROJECT SEALER WHITE is a covering 2-component water-based insulating base varnish for floors, which must be covered with a hard-wearing project varnish. TRAE LYX PROJECT SEALER WHITE prevents yellowing in almost all cases of components in the wood bleeding. TRAE LYX PROJECT SEALER dries quickly and is easy to apply. The varnish contains low levels of solvents.

Trae Lyx Primer

TRAE LYX PRIMER is a blank, one-component parquet primer. The excellent insulating properties of TRAE LYX PRIMER encapsulate specific characteristics of the various types of wood, while the colour and glow of the wood are brought to life. TRAE LYX PRIMER has high levels of solids, high viscosity and good humidifying properties. TRAE LYX PRIMER insulates the compounds that occur in certain wood types (such as tannin) whereby it prevents unsightly stripes or discolouring. Intensifies the natural, warm colour of the wood, leading to a beautiful result. Finish afterwards with TRAE LYX PROJECT VARNISH, TRAE LYX FLOOR VARNISH, TRAE LYX NATURAL OF TRAE LYX PARQUET VARNISH.

Trae Lyx Furniture Varnish

TRAE LYX FURNITURE VARNISH is a water soluble, non-yellowing transparent varnish based on polyurethane acrylic resins. TRAE LYX Furniture Varnish is easy to use and virtually odourless. It does not produce a problematic odour in confined spaces. TRAE LYX Furniture Varnish is resistant to moisture, conventional household cleaning products, various chemicals and drinking alcohol. TRAE LYX FURNITURE VARNISH is available in high gloss, satin gloss and matt.

Trae Lyx 2K Furniture Varnish

TRAE LYX 2K FURNITURE VARNISH is a water-based 2-component polyurethane furniture varnish. It is developed especially for wooden furniture which is used very intensively. The varnish has optimal resistance to wear, scratches and chemicals. TRAE LYX 2K FURNITURE VARNISH does not yellow and is virtually odourless. TRAE LYX 2K FURNITURE VARNISH is available in satin gloss, matt and ultra matt.

Trae Lyx Anti-slip paste

Adding TRAE LYX ANTI-SLIP PASTE gives water-based parquet and floor varnishes a rough surface. This creates additional slip resistance. Unlike conventional anti-slip powders, TRAE LYX ANTI-SLIP PASTE leads to a virtually transparent result. This means it can also be applied to dark wood types. The effect depends somewhat on the substrate and thickness of the coat. TRAE LYX ANTI-SLIP PASTE is suitable for normal conditions.

Trae Lyx Maintenance products

As good maintenance of your parquet, wooden floors or cork floors is important for their longevity, TRAE LYX supplies high quality maintenance products for this purpose. When you use these regularly, the varnished floor is easy to clean. In addition to this, it also keeps the floor in the appropriate condition for subsequent varnish coats. All TRAE LYX MAINTENANCE PRODUCTS are aligned with each other. The environment has been given due consideration in their composition, and they have been composed to cause minimum impact on the environment. The pH value is neutral and the alkalinity is minimal.

TRAE LYX MAINTENANCE PRODUCTS are available as:
FLOOR POLISH (matt and gloss)
POLISH REMOVER
MAINTENANCE PRODUCT
SPRAY & CLEAN (also for furniture) and
MAINTENANCE PRODUCT
NATURAL.
